

## Tells Shylock 'Prints' Hit State's Case in Hall Probe

By SHYLOCK HOMES

(Copyright, 1926, by New York Evening GRAPHIC. Reproduction prohibited.)

"The authorities are away off in declaring that the two fingerprints they assert they found on a calling card of the Rev. Dr. Hall, found at the feet of the dead minister, are from the same hand.

"Why, a blind man could see that the two impressions are not the same—the whorls are entirely different. To my mind the introducing of this 'evidence' materially weakens the state's case."

### Studied Fingerprints

That comes to me in a letter from Edward G. Schultz of 822 Jackson Ave., The Bronx, a recognized fingerprint expert, who has made a very interesting and deep study of the prints as given to the press by Special Prosecutor Simpson. I handed Mr. Schultz's letter to Watson.

"What do you think of it?" I asked.

"I quite agree with Mr. Schultz," was Watson's reply after careful perusal of the letter. "Having given, as you know, Homes, quite some little time to the study of fingerprinting, I had detected the differences that Mr. Schultz points out."

### No Limitations

From Miss B. Della De Mass of 1273 Lexington Ave., an executive in a well known secret service agency, comes the question as to whether a "solution" of the Hall-Mills case must be confined to a certain number of words.

The answer is that there are no limitations—all are permitted to write as fully as they wish to express their views and in addition may send in as many "solutions" as they desire before my investigation comes to its official end, on October 2.

"The authorities have wrongfully accused innocent persons,"

concludes Richard Gandio of 1722 60th St., Brooklyn.

"I believe with all my heart and soul," he writes, "that the killing of the Rev. Edward W. Hall and Mrs. Mills was done by the wicked hand of an avenging secret society."

While hundreds of letters today assert that "the authorities are on the right track," there is an increasing sentiment that those accused are innocent.

J. Blyer Hulse of 613 West 144th St. is one of those who believe that the authorities are on the wrong path.

"The theories being worked on

by the state are all wrong," he writes.

Now, remember my offer—\$1,000 given away! Once more:—

The first correct solution of the Hall-Mills case that comes to The GRAPHIC will receive \$500. Then additional golden awards of \$250, \$100, \$50 and \$10 until the \$1,000 is exhausted. The correct solution will be based on court findings. You may send in as many solutions as you wish. NONE received AFTER OCTOBER 2. Address your letter to SHYLOCK HOMES, The GRAPHIC, 25 City Hall Place, Manhattan.

## PLANE, AS AMBULANCE, SAVES WOMAN'S LIFE

WASHINGTON, Sept. 2 (By U. P.).—Widespread use of airplanes as emergency ambulances was predicted by aviation officials today when they heard that a Hampton Roads, Va., navy plane probably had saved the life of a woman stricken with lockjaw at Hatteras Village, Va.

An immediate operation was necessary. The plane rushed the woman and her brother to a Norfolk hospital.

## Fall in Spaghetti Pot Fatal to Boy

Nunzi Disabato, 5, of 91 Pine St., Montclair, N. J., who fell into a caldron of boiling spaghetti at an Italian feast day picnic at North Beach, Queens, last Sunday, died in St. John's Hospital, Long Island City today.

The boiling pot had been taken off the coals and placed on the ground to cool when Nunzi, who was at play, fell into it.

## Good Health and Long Life Can Be Yours!

Discover and correct your physical imperfections and ailments before it is too late!

Looking Through Patient with X-Ray Fluoroscope

### BE EXAMINED REGULARLY!

A THOROUGH FLUOROSCOPIC EXAMINATION is included in our tests. By means of the fluoroscope the body becomes transparent and the physician is able to see heart, lungs, stomach and other organs in action. No motor car can run twenty months and be in as good condition as it was when new. The human body is a

machine. It cannot run twenty or fifty years without wear and tear. Some parts will be damaged more than others. A great physician said that all men are sick but do not know it. Twenty per cent. of the people in apparently good health unknowingly have impairment of the kidneys, heart, pancreas or other organs. Every automobilist has his car examined at regular intervals because he knows that a "stitch in time saves nine." A periodical health examination would reveal Bright's disease, diabetes, cancer, heart disease or other impairments while these maladies are still in a curable stage.

The Health Education Society gives a full and complete examination of every part of the body, at a nominal charge. Its laboratories and examination rooms are equipped with the latest devices of modern medical science. Your health is your greatest asset—it is your road to wealth. Inquire today about our plan of examination. Consultation Free.

The Annual Fee is \$10.00. This Includes Four Examinations a Year. One Each Quarter.
